

How is CRYOVAC® Brand packaging equipment aligned with **customers' sustainability goals?**

REDUCED WATER

No water used on vacuum packaging machinery.
Reduced water used on shrink tunnels.

REDUCED FOOTPRINT

Reduced GHG emissions due to low energy use and reduced food waste.

COST SAVINGS

Low total cost of ownership during the life cycle. High level of Overall Operating Effectiveness gives additional savings and return on investment.

ENERGY SAVINGS

Reduced energy intensity via intelligent pump control and lower compressed air power with smart mechanics.

REDUCED WASTE

Packaging material size adjusted to actual product size thanks to **auto bagging and smart product handling** while packaging.

LABOUR EFFICIENCY

Optimum ergonomics and Human-to-Machine Interface. Automation of repetitive processes and centralised line control.
